Bogor, June 17, 2010

“To Whom It May Concern”

This recommendation is given to: **Ms. Devin Maeztri**

Ms. Devin Maeztri was a student in Department of Landscape Architecture – IPB. I have known him since September 1998 when he was accepted as a Bachelor student in our University. I have been knowing her deeper since she was attending my lecture in the subject of “Landscape Management”, then especially, when I was a supervisor of her for Bachelor thesis, “Study of Landscape Existing for Urban Agriculture in Kampung Banjarsari, Kelurahan Cilandak Barat, Jakarta”. Therefore, as I have known Devin for almost 12 years and observed her personal growth, I am convinced that this letter of recommendation can serve to justify her individual qualities and competencies.

As we both have similar experiences of living in Japan, Ms. Devin actively invited me to be an interviewer in a student exchange selection program to Japan that she helped organizing in Bogor. She was also a member of PERSADA (Association of Indonesia Alumni from Japan), Bogor Branch in which I was a Chairman (2002-2005), and she sometimes volunteered at a couple of PERSADA's events I led. In her third year, we recommended Devin to be awarded scholarship of an exchange program to The University of the Ryukyus, Japan. She is a dedicated and diligent student, and has achieved excellent records in her student organization and academic activities during her study at our department in Bogor Agricultural University. The ability of speaking English of her is very good.

Moreover, after she had graduated from Melbourne University, Australia I thought she has got an high achievement of her capability in planning, communication, and interpersonal skills. She contributes and participates in many international organization. Therefore, her capability would be suitable for your criteria of your institution.

In conclusion, I would give you a highly recommendation to accept Ms. Devin Maeztri to join in your institution. I believe she would make a great contribution to the program of your institution. If necessary, I would be able to become reference in order to give more information.

Sincerely yours,

Hadi Susilo ARIFIN, Ph.D.

Professor in Ecology & Management of Landscape

Head of Landscape Management Division

Landscape Architecture Department, Bogor Agricultural University (IPB)
