Summary

Highly motivated and experienced professional with expertise in interdisciplinary projects. Proven track record in project management and working with people from different cultural and geographical backgrounds. Demonstrated ability to self-manage and work in a team. Excellent interpersonal and leadership skills. Abundant energy to consistently learn. Recognised for being very committed, adaptable and approachable.

Highlights

Established a people-powered campaign and a climate movement by building partnerships and volunteer groups to support the campaign on renewable energy in Indonesia. Organised a global day of action "Rise for Climate in Indonesia which involves 76 collaborators doing 28 actions in 19 cities. Managed a study on transport planning in Bali, which includes a discussion about the role of tourism and cultural influences in transport planning. Developed a toolkit on emission calculation for urban transport systems. Initiated training to disseminate best practices and lessons-learned using an experiential learning approach to ensure sustainable impact.

Education

2007-09 **Master of Environment**, University of Melbourne, Australia
Areas of study: Development, Education, Governance, Policy and Communication, Sustainable Cities, Sustainable Regions

1998-2004 **Bachelor of Agriculture**, Bogor Agricultural University, Indonesia
Major area of study: Landscape Architecture

Accomplishments

Organization and Management

- Amplified recruitment and admission activities using personal experiences as a scholarship recipient and an alumna of the University of Melbourne.
- Appointed as National Project Officer to coordinate nationwide selection process, supervise 13 chapters and contribute to the team of assessors.
- Arranged a regular progress meeting and managed progress monitoring report to prepare for Sustainability Progress Report.
- Arranged Sustainable Cities Round Table Seminar for Victorian Eco-Innovation Lab.

- Built partnerships and volunteer base to support fossil free campaigns.
- Consolidated programs, project proposals and publication for environmental education activities to advocate biodiversity conservation in the urban area.
- Consolidated the work of travel officer when working as Assistant to the Executive Director of Bina Antarbudaya; administered all travel itineraries for exchange students from and to Indonesia.
- Coordinated school-based environmental education program in Bekasi, Bogor and Jakarta; designed learning activities with Insect Museum and Fresh Water Aquarium Center, engaged elementary, junior and high school students and promoted environmental conservation.
- Coordinated sending program for Bina Antarbudaya exchange program in Bogor greater area, organised campaigns, recruitment, and assessment process.
- Designed public consultation and concept for MCC Compact Program proposal.
- Developed a draft Guideline for Indofood Sustainability Implementation.
- Organised national and international events to build public awareness and build the capacity of volunteers and partner organisations.
- Organised and volunteered at several WordCamp events in Bali and Jakarta to build and strengthen WordPress communities in Indonesia.
- Organized Symposium on Inter-state Water Conflicts in Southern Asia in February 2011.
- Promoted to Casual Office Assistant for Victorian Eco-Innovation Lab and supervised an intern.
- Refocused the organising of National Workshop on Sustainable Urban Transport in 2013.
- Reorganized toolkit writing and mediated the expectations between technical and management team.
- Revitalized dissemination plan of best practices and lessons learned and showcased the experiential learning approach to make a significant impact on the participants.
- Revitalized Postgraduate Environmental Network activities, recruited new members and mediated between former and new members.
- Supported Sahala Consulting during early establishment, administered office duties such as finance, procurement and training for new staff.

Research and Analytical Skills

- Advised and fabricated urban transport chapter for RPJMN 2015-2019; and communicated and reviewed the implementation.
- Assembled facts and figures to develop project outline on urban transport for NAMA Facility.
- Completed postgraduate coursework program by taking 16 environment and development related subjects. Each subject required 7000-word essay writing.
- Coordinated study on the transport system in Sarbagita, which includes discussion about the role of tourism and cultural influences on transport planning in Bali.
- Designed and completed undergraduate thesis using survey questionnaire and field observation to identify existing landscape of urban agriculture in Kampung Banjarsari, and proved urban agriculture to contribute to urban biodiversity conservation.
- Designed and conducted research on climate vulnerabilities and adaptation in three Southeast Asian megacities (Bangkok, Jakarta and Manila).
- Designed and conducted research on food security and Reduced Emissions through Deforestation and Forest Degradation, and organised field visit to Jambi.
- Developed a campaign strategy to stop the fossil fuel industry and drive energy transition towards 100% renewable energy in Indonesia.
- Developed National Framework on Nationally Appropriate Mitigation and fabricated the chapter on urban transport.
- Developed Planning Guidance on Urban Mobility in Indonesia and fabricated the chapter on transport and the environment.
- Developed technical guideline on Monitoring, Evaluation and Reporting in urban transport, and supervised the transfer of knowledge and information on climate mitigation strategies to local governments.
- Developed a toolkit on Monitoring, Evaluation of Reporting of RAD GRK Implementation in the urban transport sector.

- Explored community initiatives, which promote urban agriculture and sustainability in Melbourne.
- Formulated grant concept template for climate mitigation actions in urban transport.
- Identified social impact strategy to safeguard the implementation of MCC Compact Program.
- Initiated and organised a monthly discussion on environment-related issues amongst Indonesian students in Melbourne.
- Produced rostered web-based magazine and blogs for Centre for Non-Traditional Security (NTS) Studies.
- Responsible for finalisation of the draft of Indofood Sustainability Report 2015.
- Researched various issues on food and environmental security, including climate change politics and governance, in particular about the community resilience in the urban environment.
- Served as a co-writer in the policy writing for Indofood Sustainability policies.
- Supervised research on finding new campaign approaches to end fossil fuels industry.

Communication Skills

- Administered SUTIP Facebook page to communicate government policies and sustainable urban transport.
- Administered Victorian Eco-Innovation Lab websites, Sustainable Melbourne and Sustainable Cities Net, as environment and sustainability hub.
- Advised and facilitated SDN Pakujajar Cipta Bina Mandiri in Sukabumi to compete in the 1st Adiwiyata Environmental School nationwide competition and accomplished to win first prize in 2007.
- Maintained offline engagements and partnerships with volunteers and partner organisations.
- Co-facilitated national meeting of Ministry of Education and Culture using experiential learning.
- Co-facilitated university students in Bayer Young Environmental Envoy Eco Camp.
- Contributed as campaigner, interviewer and home interviewer for student exchange program.
- Counselling students from year 7 (seven), mature students and parents about studying overseas.
- Delivered international profile of University of Melbourne and Trinity College Foundation Studies by working with alumni, education agents, sponsorship/scholarship bodies and schools in Indonesia.
- Demonstrated high-quality teaching skills as proven by teaching English to employees and Japanese to students from year 7 (seven) to university students at schools and language centres.
- Established and administered the University of Melbourne Indonesia Office Facebook Page as part of university communication strategy.
- Expanded network with players in climate change mitigation initiatives in Indonesia including support to Secretariat RAN GRK.
- Facilitated meetings, negotiation, discussions, training sessions, seminars and workshops.
- Improved educational counsellors, through day-to-day support and periodic training.
- Initiated and administered international student environmental groups on Facebook: Global Seminar: Environment and Sustainability and Postgraduate Environment Network.
- Interpreted day-to-day meetings and communication between staff at SANYO manufacturing plant.
- Mediated team communication in a multicultural environment and between generations.
- Mentored new AusAID students from various Asian countries from 25 to 35 years old, on their pre-arrival and on-arrival arrangements.
- Served as a youth representative from Indonesia on ASEAN – CHINA Lecture Series on 'Historical and Contemporary Relations between the Peoples of Southeast Asia and China: Enhancing Future Collaboration between ASEAN and Chinese Youth' organised by ASEAN Secretariat & Ministry of Foreign Affairs.
- Served as field interpreter for NHK Jakarta office to conduct news coverage and organise a technical survey.
- Served as speaker alumni sessions for prospective students interested in studying in Australia.
- Tailored teaching materials to meet the needs of students with different learning abilities.
